ADVANTAGE NEWS

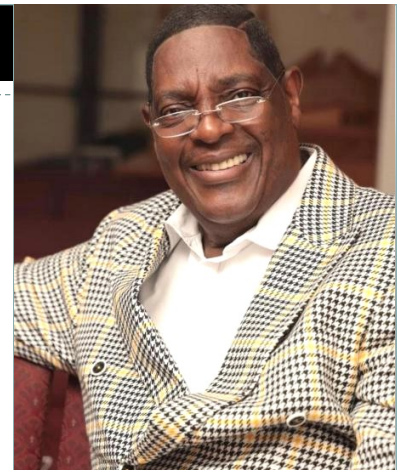

WHAT'S HAPPENING AT LIU 2023-24?

IT'S A NEW SCHOOL YEAR!

Welcome to RELC and welcome back to the LIU Advantage After School Program. Our after school program is up and running and we're looking forward to another great school year.

During the first four weeks of our program, we have registered approximately 96 students, and we are excited about all the activities and new projects that our LIU family will engage in during the 2023-24 school year.

This year, our students will have the opportunity to connect into an extended French Program, and will engage in special town hall sessions with guest speakers and organizations throughout the community. This issue will give a glimpse of some of the activities so far.

HISPANIC HERITAGE

September 15 - October 15, we had the opportunity to celebrate Hispanic Heritage Month. With school-wide activities happening, several of our students told us what Hispanic Heritage meant to them...

What I feel is that it is something super exciting because it is where we are going to see many Hispanic countries celebrate their country with pride and they are going to see many people celebrating their country and see how they represent different cultures and know how they represent their foods, clothing. It's something super exciting.

And seeing how Hispanics represent different countries is somewhat moving, seeing how they represent it with pride.

- Maite Reisancho, 703

What I feel about being Latina. I love being Latin because we Latinos have a very nice way of expressing ourselves towards people. We are also friendly, although there are Latinos who are not so good, something I like is the help we give each other too, we have a homeland and own liberty. Something that I also like is the food and how we treat each other. I love being Latin.

Jeyli Mateo, 803

Alejandra Sandoual- 803

What I feel about being Hispanic is that I am from different cultures and you can also get to know different countries since each of you has a culture and above all different languages and things that you have always wanted to know since you feel proud of yourself because I am Hispanic and it is something very cloning that the countries you know there are different traditions and celebrations like when you try foods different from your country it is nice since you will have heart for each country you know.

Lo que siento del respeto o lo que pienso es que es una forma buena y bonita de celebrar de dónde eres, pero es como una forma de respeto hacia esta gente. una forma de respeto hacia estas personas. Recuerdo que hay mucha gente que es nativa de Estados Unidos pero viene de familias latinas. Es emocionante y agradable cuando vienes de esta gente, es como algo representativo de esta gente, es como algo representativo. También es algo de respeto como mencioné, toman fechas, toman tiempo como mencioné, toman fechas, toman tiempo para conmemorar a estas personas.

“What I feel about respect or what I think is that it is a good and nice way to celebrate where you are from, but it is like a form of respect towards these people. a form of respect towards these people. I remember that there are many people who are native to the United States but come from Latino families. It's exciting and nice when you come from these people, it's like something representative of these people, it's like something representative. It's also a respect thing as I mentioned, they take dates, they take time as I mentioned, they take dates, they take time to commemorate these people.”
